Compost

V0110

INSTRUCTIONS;

- Take several samples from 15-25 cm into the pile, halfway between the top and the ground.
- Mix the samples together.
- Place **2 cups** or 500g of this mixture in a ziplock plastic bag.
- Mark each bag clearly with ID.
- Send samples by **overnight courier post**.
- Please note that SFI NZ cannot guarantee timely analysis for samples arriving just prior to weekend or public holiday.
- Report will be issued within 10 working days from receipt of sample.
- See www.soilfoodweb.co.nz for more detailed sampling instructions.

Tick the box to select required service

BACTERIAL AND FUNGAL PACKAGE: \$125.00 inc GST

This is a basic analysis that enables the grower to know whether the compost undergone the full maturing process and will provide the necessary fungi and bacteria in the correct balance for their crop. A written report detailing our findings and suggested measures for application is supplied.

TOTAL FOODWEB PACKAGE: \$190.00 inc GST

This package includes all assays on compost completed by SFI NZ: While providing information as to the composts' maturity and suitability for the grower's specific crop it will also indicate the composts nutrient cycling capabilities. A written report detailing our findings and suggested measures for application is supplied.

NOTE: To obtain individual assays on bacteria, fungi and protozoa please contact the lab for quote.
